

Some notes about ordering Math Books for 2016-2017

1. If your school ordered multi-year subscription for Connect Ed Math programs, the books are shipped automatically. Please determine if your school has a multiyear subscription by accessing the Connect ED SUBSCRIPTIONS AND IDENTIFYING THE END DATES.

Connect ED Subscription Manager: 800 5984077

2. Please do not wait until the first day of the school next year to notify Glencoe McGraw Hill Company to ship the new materials. Last year, some of our schools experienced significant delays because they expected to have orders shipped in without informing the company. You may use the phone numbers and the contact below for your orders.

3. For High School Books Algebra 1, Geometry, Algebra 2 this year we are recommending our schools to purchase a new series, from Houghton Mifflin Harcourt Interactive Math Textbooks.(Find the pricing and the ISBN Numbers at the end of the document). For a smooth transition and not to bring extra burden on the school budget, consider the following:

If your Algebra 1, Geometry and Algebra 2 book from Glencoe is old and worn out, we recommend you to replace them with Houghton Mifflin Harcourt. If not, keep the books and consider replacing them in the upcoming years.

If you have any questions regarding the Houghton Mifflin Math program, please contact Ronni Scott at 216-816-6471 or veronica.scott@hnhco.com.

4. McGraw Hill is providing Quick Start Online courses starting at the end of July and going on for about a month and a half. These courses are great for a quick way to get up to speed on your McGraw-Hill Education program.

Quick-start online courses deliver modular, video based instruction to support your back-to-school implementation.

Led by program experts, the courses provide instruction and exposure to the tools and components teachers use during the first few weeks of program implementation. Quick-start online courses are a timely, well-organized way to get the information you need. They are part of your program's Professional Learning Environment, accessible through McGraw-Hill Education's ConnectED.

School Administrators could consider encouraging their math teachers with little or no experience to register for these courses that would help them on how to use McGraw Hill Connect Ed ONLINE resources more effectively.

5. Mastery Courses: In-depth knowledge for essential topics.

These affordable, professional-level and self-paced online courses address key classroom issues and challenges. Designed using principles of effective professional learning, they build a deep understanding of:

- Rigorous learning standards
- Effective teaching practices for specific content
- Ways to optimize classroom instructional materials to elevate student results

Mastery Courses are available for select programs.
